		*This information is obligatory

User: Here the username must be placed to login to Monex; this username can be changed in the future within digital banking

Once you have typed your username, it can be verified below the box on a message.

Password: You will be prompted to determine a Password; you must repeat it twice to avoid mistakes.

The syntax to be followed to create the password is as follows:

- Length: 8 characters combining letters and numbers (maximum 15 characters).
- Spaces are not allowed, accented letters, ñ, hyphens, diagonal or other symbols.
- No more than 2 consecutive identical characters (e.g., AAA, 666, XXX, etc.).
- No more than 2 consecutive characters numeric or alphabetic (e.g. ABC, 456, XYZ, etc.).
- Do not allow the use of the word MONEX case sensitive in the password.
- Not allowed the same user that is being created.

4

Activation

You will be redirected to the authentication system in order to login with your username and password you created.

The system will ask you to register a security phrase and select an image to confirm you are correctly access your contract, and every time you access to your account you will see this phrase and image.

Click on save

Once you are in your digital account in the top right side of the screen, you will see a gear, click on it, and then select "Token Configuration."

Select "Activate" and the click on "Next."

Then you need to type the serial key of the token and expiration date as they appear in the back of the device and select "Send."

From now on you can make use of the dynamic key generated in your token.
